Inform. Innovate. Influence.

August 18, 2021

Welcome to the 2021 Florida Behavioral Health Conference! We are incredibly excited to be back with you live and in person in Orlando. Whether this is your first time with us, or you are a loyal attendee, I hope you will use this time to recharge, refresh, relax, and reconnect with professionals across the state.

The toll the coronavirus pandemic has taken on our communities is immense. Adults, children, and families are all struggling with the anxiety, depression, and substance use that resulted from the length and intensity of the isolation. Mental health and substance use treatment services have never been more important and more widely recognized. Together, we are Going the Distance and breaking the barrier of stigma to help individuals and families rebuild their lives.

We have brought together industry experts and leaders from around the country to share best practices, recent guidelines, and up-to-date information. We hope you take away at least one new idea or innovation to use in your practice and are empowered by the inspirational messages. We also hope you use this week to learn, share, and laugh by catching up with old colleagues and making new friends.

Ultimately, we hope this week will help us continue Going the Distance together. So, please recharge, refresh, relax, and reconnect - you deserve this. Thank you for joining us, and enjoy BHCon2021!

Melanie Brown-Woofter
President & CEO
Florida Behavioral Health Association

Interested in becoming a member? Visit the membership page on our website www.floridabha.org.

FBHA has over 69 community behavioral health members spanning from Pensacola to Key West.

Let's get social! @Floridabha_ & @Floridabha.org

About FBHA

The Florida Behavioral Health Association (FBHA) is the state's largest trade association representing community treatment providers with a united voice. The FBHA serves as a trusted source of information, advances policy initiatives, and advocates for better behavioral health services for all Floridians.

What we do:

- Advocate for legislation, funding, and policies that support the full continuum of services in the behavioral health system of care
- Promote high standards for the delivery of behavioral health services
- Collaborate with state and federal agencies and national organizations to advance behavioral health policy and practice
- Create learning forums for members to share best practices and innovations
- Train professionals in the civil and criminal justice system and health care industry to recognize behavioral health disorders
- Educate the public about the importance of mental well-being
