**Action for
Behavioral
Health Care**

Together, we can make a difference.

Contributor Support

Thousands of Florida families are affected by mental illness and substance use each year. These families deserve access to affordable, community-based treatment services. Sadly, Florida ranks low in the nation for mental health and substance use services funding.

How You Can Help

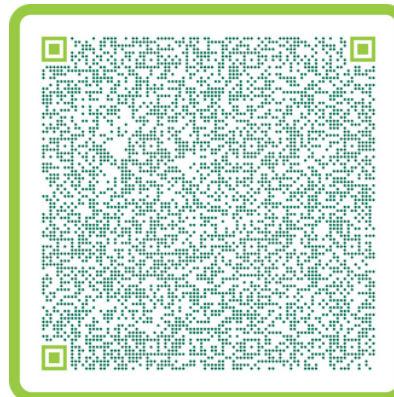

Action for Behavioral Health Care (ABC) is a way for you to play an active role in securing the future of mental health and substance use services and allowing your voice to be heard. ABC collects funds to aid advocacy efforts; increase the prominence of the behavioral health industry and help win key political battles in Florida.

Your Support

- **Educates legislators about the need for mental health and substance use programs**
- **Builds strong relationships with legislative leaders locally and in Tallahassee.**
- **Cultivates support to positively impact behavioral health funding decisions.**
